LEADING INNOVATIONS IN HEALTHCARE TECHNOLOGY

LOUISE SHEPHERD
CHIEF EXECUTIVE
AT ALDER HEY

DR SIMON BOWERS - GP IN
LIVERPOOL & iLINKS CONFERENCE
CHAIR

"take it back to where you work
and use it for the people we serve"

@iLINKSInnovator
#iLINKSX
www.iLINKSInnovationsMersey.nhs.uk

WELCOME
TO THE
10TH
YEAR
OF iLINKS
innovations

"12 months since the
launch of the strategy"

Where we are:

- Great Leadership
- £25million investment
- Governance & Partnership
- "Share to care" 50,000 users
- teamwork including cyber specialists

"WE ARE MUCH
STRONGER
TOGETHER
THAN WE EVER
ARE ALONE"

"140,000 'Share to care' users by December 2019"

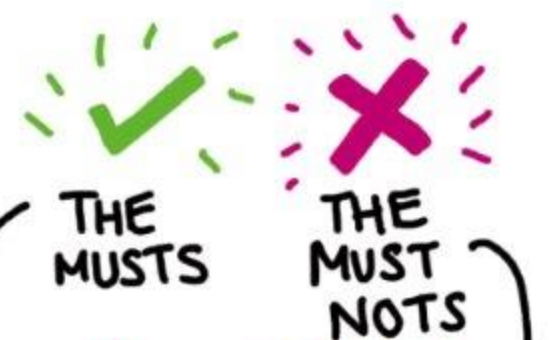

iLINKS Innovations

LEADING INNOVATIONS IN HEALTHCARE TECHNOLOGY

"WHAT DID WE LEARN FROM DIGIT@LL?"

DAVID WALKER
CHIEF INFORMATION
OFFICER

THE MUSTS

THE MUST NOTS

"SHARE TO CARE"

1
SINGLE
ECO
SYSTEM

INTRODUCING
THE RIGHT
PEOPLE TOO
LATE IN THE
DESIGN
PROCESS

DR LIZ MEAR
CHIEF EXECUTIVE
INNOVATION
AGENCY

"We have supported the growth of 100 jobs and gained £15 million of funding for SMEs"

"Solution themes of over 300 digital innovations"

"WE NEED TO DEVELOP A SYSTEM THAT TALKS - WHO IS WILLING TO DO THIS??"

INNOVATION AGENCY
Academic Health Science Network
for the North West Coast

OUR AIMS ARE TO:

1. IMPROVE HEALTH

2. DRIVE DOWN COST OF CARE

3. STIMULATE ECONOMY GROWTH

iLINKS Innovations
LEADING INNOVATIONS IN HEALTHCARE TECHNOLOGY

MED X PANEL

IAIN
HENNESSEY

"Follow
the
laughter"

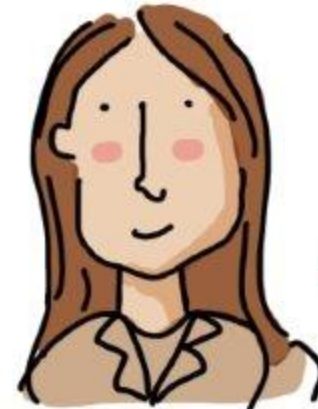

LAURA
JENIONS

"Not just the
Physical & medicine"

DR CECIL
KULLU

"Beat stigma"

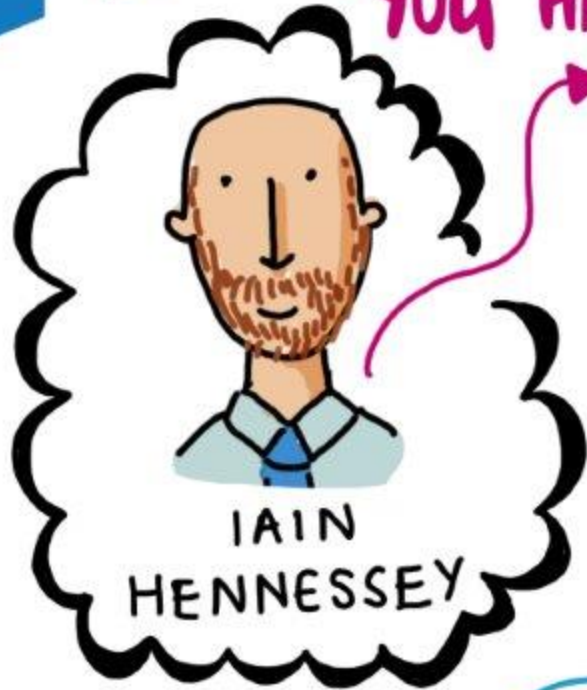

DR SINEAD
CLARKE

"We need engagement
it's not just about the
technology"

MED X PANEL

"YOU HAVE TO BE BRAVE ENOUGH
TO GET LAUGHED AT"

"PERSISTENCE"

"When we are innovating
we always say follow the
laughter"

3D PRINTING

"We took innovation
from Kenya and
put it into clinical
practice. It's now
embedded in the
clinical workforce"

iLINKS Innovations
LEADING INNOVATIONS IN HEALTHCARE TECHNOLOGY

MED X PANEL

"WE USE VIRTUAL REALITY DEVICES"

LAURA JENIONS

"Not just the physical and medical but the mental health too."

"we can tailor the VR experience to suit the patient."

- ☐ Anxiety management
- ☐ Improve breathing
- ☐ Helps with relaxation
- ☐ Better patient experience
- ☐ encourages movement
- ☐ Helps to motivate

MED X PANEL

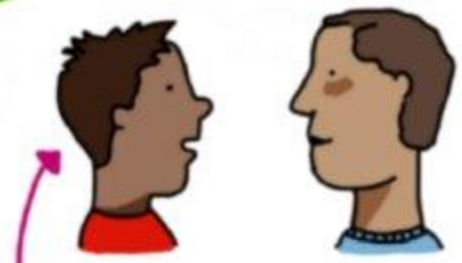

iLINKS Innovations
LEADING INNOVATIONS IN HEALTHCARE TECHNOLOGY

"BEAT STIGMA"

DR CECIL
KULLU

£105 Billion supported
by the systems to help
me do my job.

"I love that other people
are talking about
mental health!!"

"Access to GP systems
is amazing and I hope
this gets better"

"being able to carry
information means
we are able to make
more accurate
decisions."

WHAT'S NEXT

- Better relationships with clinicians
- Combining physical and mental health innovations.
- Predictive technology

MED X PANEL

"WE NEED TO BRING EVERYONE TO THE SAME STANDARD"

"There is a need to work together on engagement... it's not just about the TECHNOLOGY!"

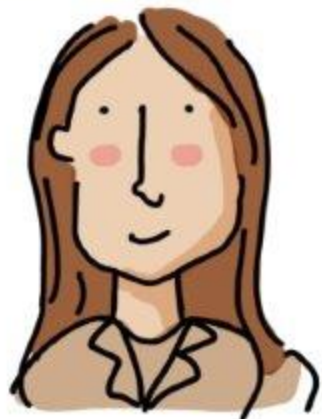

"We want to improve pathways through the use of technology"

"EPaCCS
Sharing end of life information"

THE DREAM
"An EPR
(Electronic Patient Record)
in all of our hospitals"

DR SINEAD CLARKE

MED X PANEL

QUESTION TIME

1

How do we address the scared to fail culture?

"create business outcomes that focus on return on outcome not investment."

"we should assess the risk as we go along."

"give people space and provide the air cover they need."

"Find out who's blocking"

3

"Get the champions involved"

"No No!"

How can we overcome resistance to change?

"This is a normal part of the process... but we need to understand the WHY."

"create a safe space"

2

Hackathon methodology

How do we get patients genuinely involved in innovation?

"get patients involved sooner in the process."

"take a similar approach to the way we coproduce in research:-
- living labs
- experiential"

MED X PANEL

QUESTION TIME

||4
How can we use technology to improve communication between health and social care?

"free things up for system leaders."

"Through the evolution of teams on the ground."

"By knowing/meeting the integrated care teams."

||6
Will there ever be one EPR system across the region?

"we inspire to this!"
"Let's start by creating standards on the system that will help us transfer data easily."

||5
What is the single biggest thing that makes your work life difficult that technology could solve?

"free time up for patients"

"seeing patient notes"

"sending less emails."

"seeing what care has been given"

||7
How important is it to produce evidence of value to patients?

"essential!"

"Timing is essential when presenting data."

"really important - the data is so exciting"
